

The Silk Contract Logistics vision is:

“To be recognised by our target customers as their partner of choice in the provision of integrated logistics solutions.”

At Silk Contract Logistics, we have adopted Total Quality Management approach. The objective is to integrate the principles of continuous improvement, with our customers and suppliers. In doing this, we will ensure the quality storage and distribution of product that meets all regulatory requirements.

The company will maintain and constantly review the Quality Management manual which describes the Quality Management system and responsibilities associated with the implementation and achievements of our objectives.

The Quality Management system manual and associated systems will be structured in accordance with ISO 9001 (Int):2008 and other applicable International and Australian Standards.

The result will provide a basis for Silk Contract Logistics to achieve competitive advantage and thereby prosper through growth and improved profitability.
